

KEENCUT

THE WORLD'S FINEST CUTTING MACHINES

TABLE EDGE ADVANCED ROTARY CUTTER

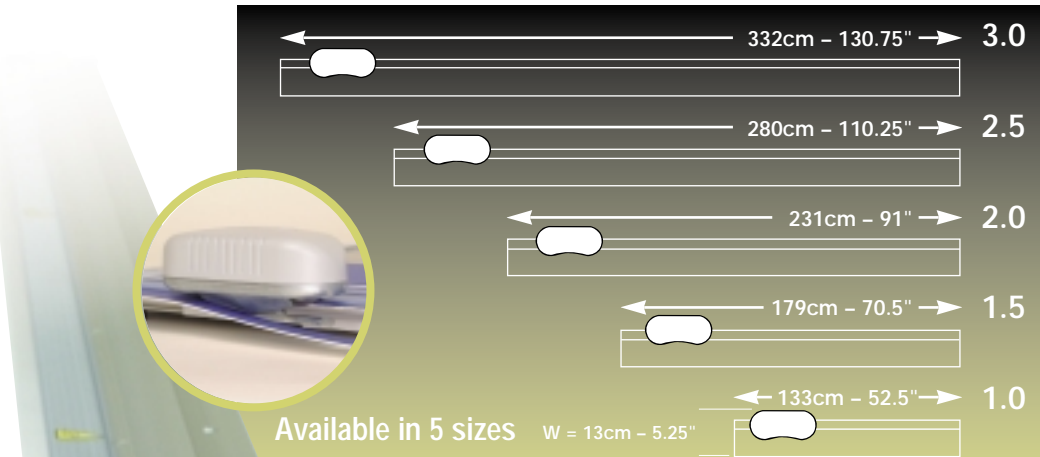

KEENCUT
Technic TE
ADVANCED ROTARY CUTTER

Once in a while a truly innovative tool is produced that is so obviously technically superior that it evokes the question "why didn't someone think of that before".

Keencut Technic is just such a product, the Technic TE (Table Edge) extends Keencut's range of rotary cutters and for different reasons evokes that self same question.

Designed to fit the edge of any work surface, the Technic TE (Table Edge) will turn the most basic workbench into a superb cutting table ideal for large format materials. Remarkably different to any other rotary cutter, the Keencut Technic and Technic TE are the culmination of 34 years experience in the design and manufacture of world-class advanced cutting machines.

Made possible with the astonishing power of computer design, the unique sub-surface monorail bearing system and twin cutting wheels address the shortcomings inherent in every rotary cutter on the market today. The Technic TE, like the Keencut Technic, has no overhead guide mechanism to obscure the cut line and the mechanism cannot distort under heavy cutting pressure. The two tungsten steel cutting wheels give unrivalled performance and long life with two way cutting on every one of the 5 models in the range.

The Technic TE is a strong, precise rotary cutting machine equally capable of cutting the most difficult of thin tissue and film, flexible sheet materials up to heavy cardboard, non-ferrous metals, plastics, paper, matboard and much more - cleanly, safely and precisely. Two clamp rollers provide secure double clamping during cutting with up to double the gripping effectiveness of any other rotary cutter.

Compare these features

- **All aluminium extruded and silver anodised base specifically designed to fit the edge of any workbench.**
- **Smooth, elegant ultra modern design for years of good looks.**
- **Excellence in build quality from in-house computer controlled manufacturing.**
- **21st Century material technology in all components for the finest performance and precision.**
- **Smooth, hardened sliding track and low friction bearings - guaranteed 20 years.**
- **5 year full guarantee excluding replacement cutting wheels.**
- **Award winning customer service.**
- **Outstanding value for money.**

Guarantees

- 5 year comprehensive guarantee (excluding replacement cutting wheels)
- 20 year sliding track and slide bearings guarantee against failure.
- 30 day, no quibble, money back guarantee.

The Technic TE is not just a trimmer it is a tough cutting machine, factory guaranteed to give many years of service.
